

CUCIF Computational Facility

For more information contact us at cucif@chitkara.edu.in

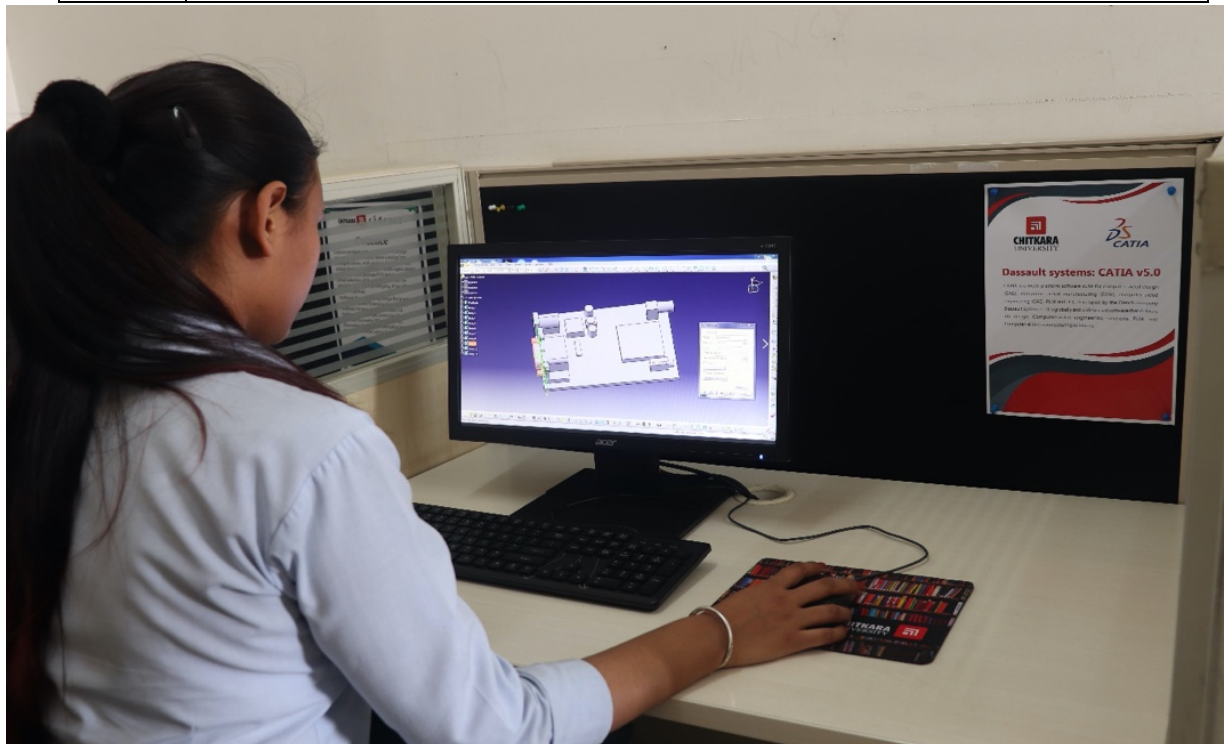

CUCIF Computational Facility is the dedicated place to experience the paid and licensed software along with the supercomputation facility. This computational facility includes different software that are required for various research work. These software's are listed in table below:

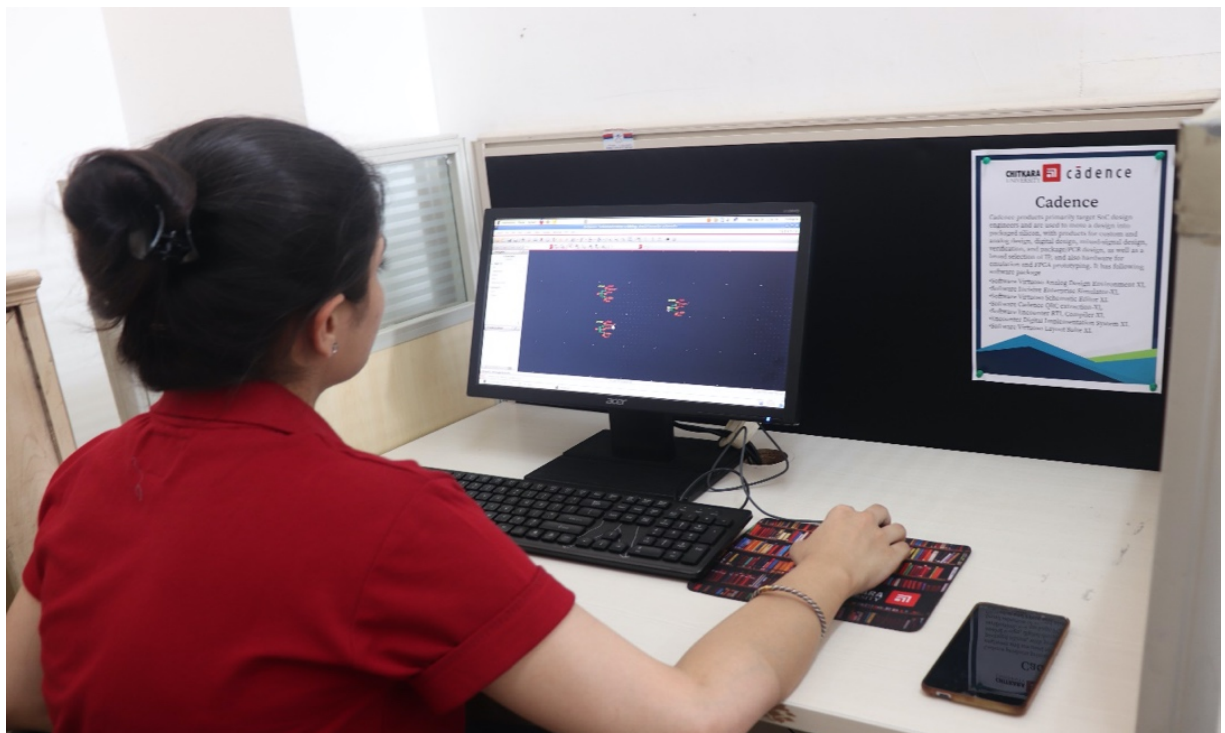

Table: List of computation facilities

S. N.	Facilities
1.	Dassault System CATIA v5.0
2.	Cadence VLSI design
3.	COMSOL Multiphysics
4.	MATLAB
5.	Xilinx ISE System Edition
6.	Lab view
7.	GeoMagic
8.	Biovia Discovery Studio

9	Silvaco
---	---------

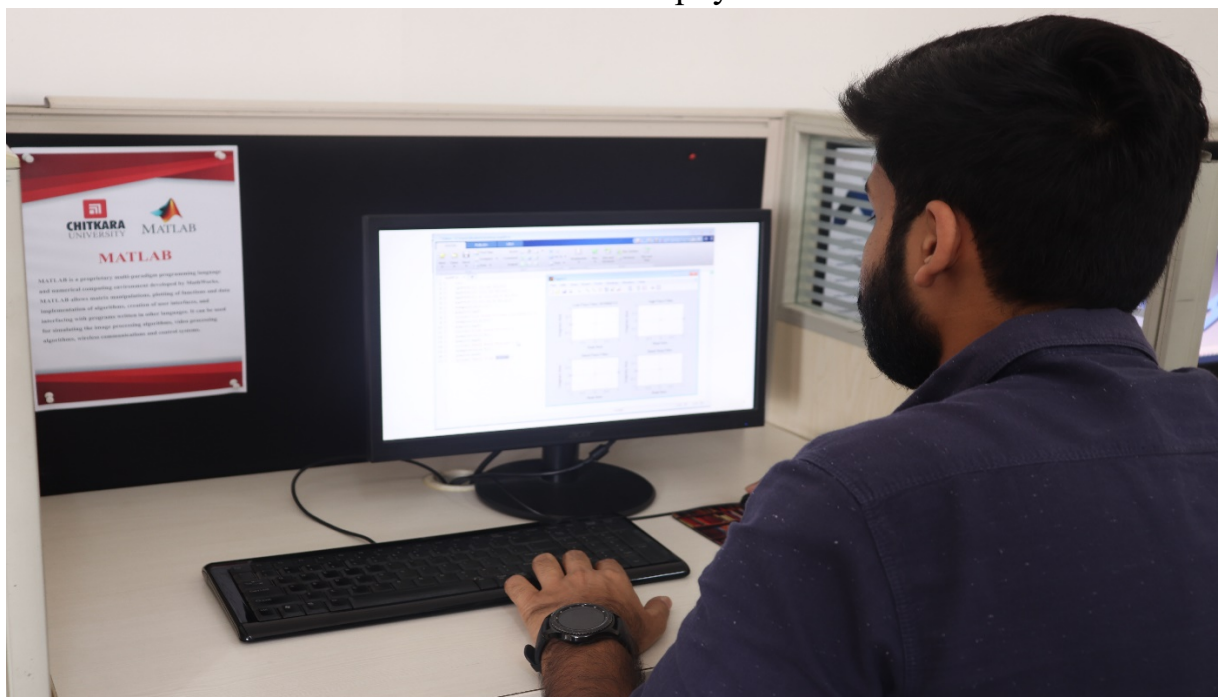

Dassault System: CATIA v5.0

Cadence VLSI Design

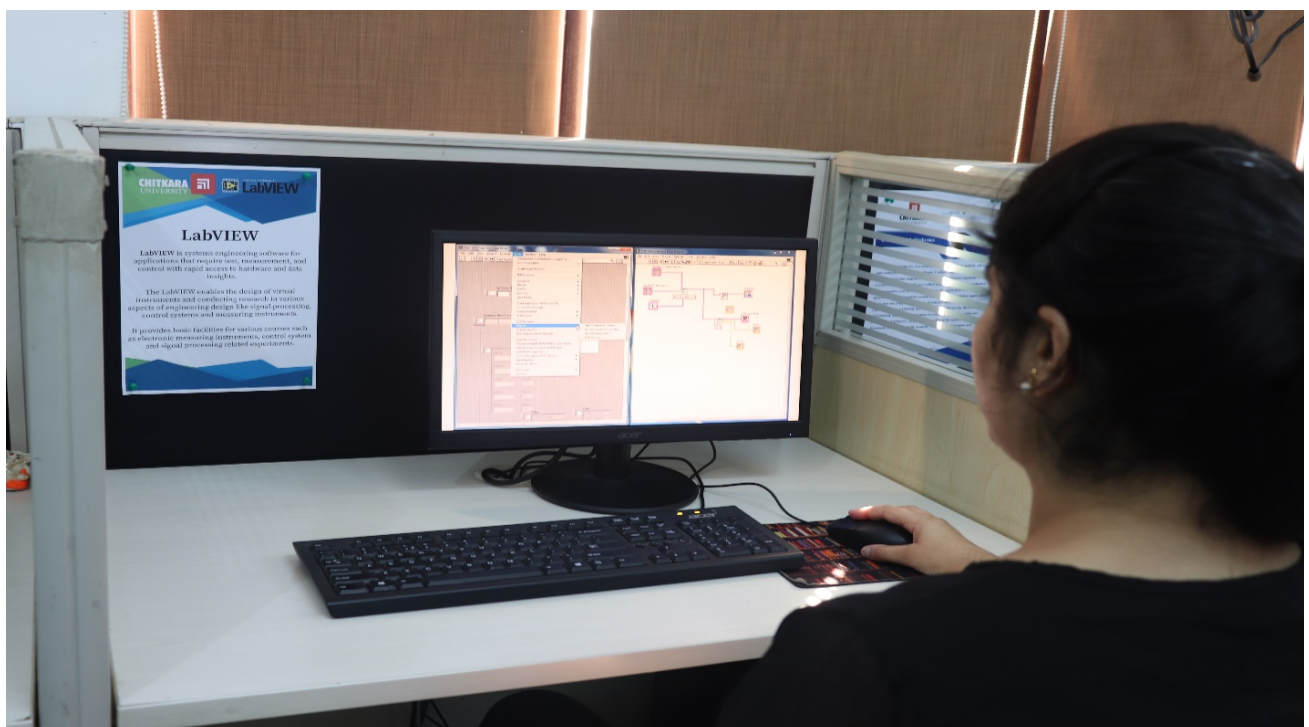

COMSOL Multiphysics

MATLAB

Xilinx ISE System Edition

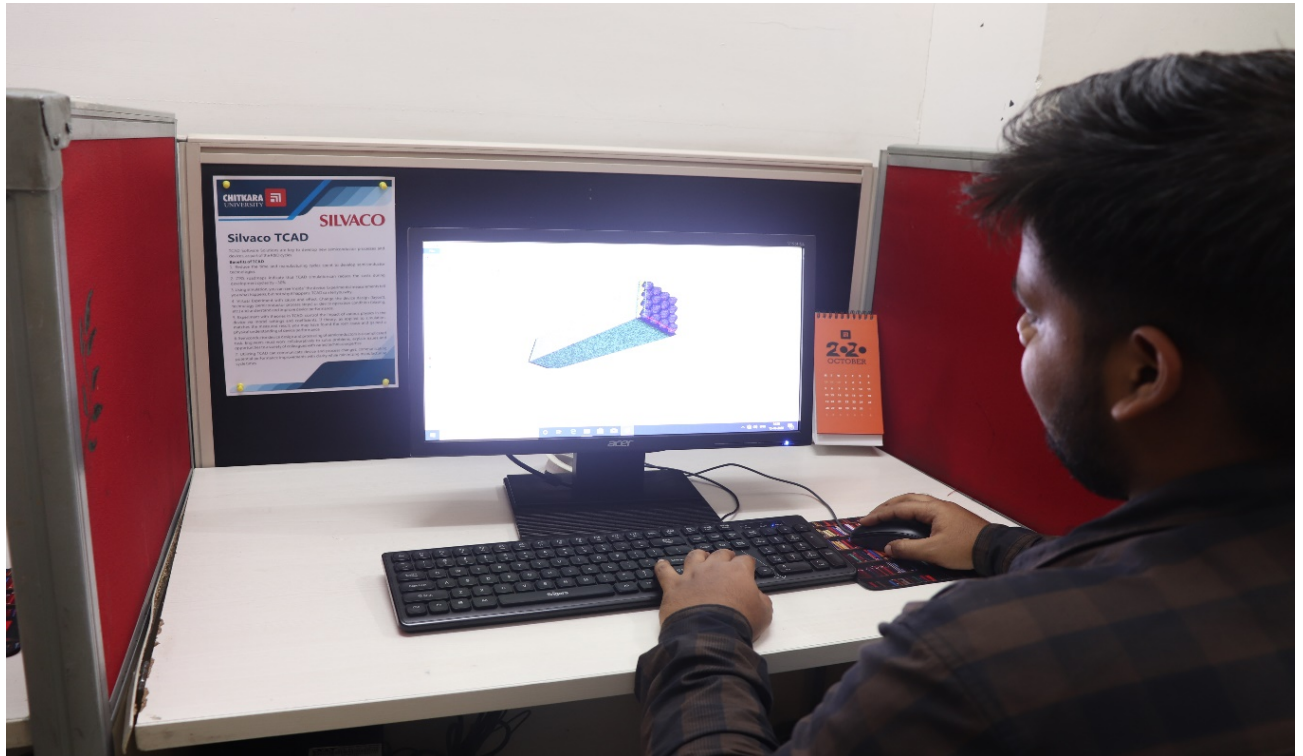

LabVIEW

GeoMagic

Biovia Tool

Silvaco tool
