Filing Date	:NA	

(57) Abstract :

The present disclosure provides an efficient, smart, reliable, and cost-effective temperature regulating device 100. The temperature regulating device 100 comprises a plurality of compartments to hold one or more objects, such as, hand sanitizer, lighter, wine opener, comb, notepad, face towel, and pen. The temperature regulating device 100 includes a housing to hold cooling warm gel packs and warm gel packs, which are utilized to maintain temperature of the face towel at the ambient temperature.
