(57) Abstract :

The present invention relates to a cell culture device 100 comprises a platform 102 configured with a handle 104, an adherable part 106, and a peelable covering 112. The platform 102 is coupled with the adhered part 106 by joints 108 and an adhesive coating 110 on adherable part 106. The platform 102 is detached from the adherable part 106 by pulling the handle 104 with forceps 202 to insert in one or more cell culture flasks and reservoirs for growing cells.
