(57) Abstract :

The present disclosure relates generally to cosmetic compositions. More specifically, the disclosure is directed to an anti-acne scrub soap composition comprising leaves of Azadirachta indica, bark of Cinnamomum verum, and Cocos nucifera water. The composition effectively clears excess oil clogging the pores of the skin without drying out the skin. It calms down inflammation and provides antimicrobial effect that keeps acne at bay. The present disclosure further provides a method of preparation of the composition.
