(57) Abstract :  
 The present disclosure pertains to a system 100 to safeguard a CCTV camera that includes a CCTV camera security frame 102 enclosing the CCTV camera, a touch sensor 104 mounted on the CCTV camera security frame 102 that senses touch of an intruder on the CCTV camera security frame 102, a control unit 106 mounted on the CCTV camera security frame 102 and operatively coupled to the touch sensor 104. The control unit 106 receives a signal of touch of an intruder on the CCTV camera security frame 102 and transmits a command signal to an electronic switch 108 of the control unit to generate an electric signal that flows through the CCTV camera security frame 102. The CCTV camera captures a picture of the intruder, and transmits the picture to a cloud service 110 that prepares an intrusion report and transmits the intrusion report to a user.
