(57) Abstract :
 ABSTRACT FOSINOPRIL FAST DISSOLVING FILM The present invention relates to a fosinopril fast dissolving film comprising of a prodrug of fosinoprilat-fosinopril , a natural polymer, a plasticizer along with at least one taste- masking agent; along with distilled water as a vehicle. It provides for an fosinopril fast dissolving film, with enhanced oral bioavailability and rapid action, with a disintegration time of less than thirty seconds and a drug release of at least 80% in three minutes. The present invention also discloses a method for synthesis of the fast- dissolving film using natural polymers. Reference Fig 1
