(57) Abstract :

ABSTRACT ETORICOXIB COMPLEX FAST DISSOLVING FILM The present invention relates to an etoricoxib fast dissolving film comprising of an etoricoxib-beta-cyclodextrin complex, a natural polymer, a plasticizer along with at least one taste- masking agent along with distilled water as a vehicle. It provides for an etoricoxib-beta-cyclodextrin complex fast dissolving film, with enhanced oral bioavailability and rapid action, with a disintegration time of less than twenty-five seconds and a drug release of at least 80% in three minutes. The present invention also discloses a method for synthesis of the fast- dissolving film using natural polymers. Reference Fig 1
