**3)SHARMA, Vishal**

Address of Applicant :Chitkara University, Chandigarh-Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India. Patiala -----

(57) Abstract :

A wallet monitoring system (100) allows a user to locate the wallet if it is lost or stolen and to lock the wallet from a remote location. The system (100) attached to a wallet body 102, and includes one or more sensors 104 attached to an inner surface of the wallet body to detect the accommodated items in the wallet body 102 and display the accommodated items on a user device 120. Also, a positioning unit 106 attached to the wallet body to acquire location of the wallet body, thus enabling the user to track the location of the wallet body 102 in case the wallet body is lost. Moreover, a magnetic locking mean 108 attached to the wallet body 102 that enables locking and unlocking of the wallet body from the user device 120.
