(57) Abstract :

The present invention generally relates to a herbal composition for use in skin care. Specifically, the present invention provides a herbal composition for treating skin diseases such as Psoriasis and associated symptoms including rash with itchy, scaly patches, most commonly on the knees, elbows, trunk and scalp. The herbal composition comprises therapeutically effective amounts of extracts from Cynodon dactylon, Wrightia tinctoria, Psoralea corylifolia Linn, Nigella sativa, Chrysopogon zizanioides, Aloe barbadensis, Acorus calamus and Sesamum indicum Linn. The present invention also discloses a process for preparing the herbal composition and its use.
