(57) Abstract :
 The disclosed embodiments illustrate a multifunctional portable adapter (100) for connecting a computing device and an iOS device. The adapter includes a housing (102), a USB port (104) for connecting to the computing device or iOS device, one or more ports for receiving power, a headphone jack for connecting headphones, and a display device (110) that displays battery status, time, date, and day information upon connection. The adapter also includes a combination of type-C and lightning ports and is compatible with Android, Mac, and Windows devices. The display device is an AMOLED display. Additionally, the adapter includes a biometric sensor for unlocking the computing device.
