**1)MISHRA, Saket**

Address of Applicant :ODC-4, Panchshil Tech Park, inside Courtyard by Marriott premises, Hinjewadi Phase - 1, Pune - 411057, Maharashtra, India. Pune -----

**2)SINGH, Dhiraj**

Address of Applicant :ODC-4, Panchshil Tech Park, inside Courtyard by Marriott premises, Hinjewadi Phase - 1, Pune - 411057, Maharashtra, India. Patiala -----

**3)SINGH, Gurjinder**

Address of Applicant :Chitkara University, Chandigarh-Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India. Patiala -----

(57) Abstract :

The subject matter of the disclosure relates to a system to recover deleted mails. The proposed invention discloses deleted email recovery system works by scanning the computer or email account where the emails were stored and looking for deleted emails. When an email is deleted, it is usually not immediately removed from the computer or email server. Instead, it is marked as deleted and the space it occupies is made available for other data. Once the system has located a deleted email, it will attempt to recover it by reconstructing the email from the data that is still present on the computer or email server. This process can be complex, as the data may be scattered or partially overwritten by other data. The success of the recovery process will depend on the amount of data that is still present and the quality of the recovery system being used.
