(57) Abstract :

A podium (100) and a method (300) to assist a lecturer is provided. The podium (100) includes a controller (102) configured to manage functionality of the podium (100) and the plurality of platforms (104) integrated with the podium (100). The plurality of platforms (104) include a biometric detection module (106), an attendance module (108), an emergency module (110), and a cloud computing server (112). The podium 100 allows teachers to interact with students in real-time, creating a more engaging and interactive learning environment. The podium 100 helps prevent unauthorized access and ensure the safety of students and faculty. The podium 100 is adjustable, making it easier for teachers of different heights to use it effectively. The podium 100 allows teachers to track attendance and monitor student progress, making it easier to identify students who are struggling and provide them with the necessary support.
