Address of Applicant :Computer Science and Engineering in Artificial Intelligence CUIET, Chitkara University, Chandigarh-Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India Rajpura -----

(57) Abstract :

ABSTRACT A DUAL FUNCTIONALITY HANDHELD DEVICE AND A METHOD THEREOF A dual functionality handheld device (100) and a method thereof are provided. The handheld device comprise a heating element (102) configured to heat up upon activation, a cooling mechanism (104) configured to generate cooling effect upon activation, temperature sensors (106) configured to monitor current temperature of the handheld device (100) and its surroundings, a control system coupled to the heating element, the cooling mechanism and the temperature sensors and configured to control the functionality of heating element, the cooling mechanism and the temperature sensors, a power source configured to provide power up the handheld device (100).
