Filing Date :NA  
(87) International Publication No : NA  
(61) Patent of Addition to Application Number :NA  
Filing Date :NA  
(62) Divisional to Application Number :NA  
Filing Date :NA

(71)Name of Applicant :

**1)Chitkara University**

Address of Applicant :Chitkara University, Chandigarh-Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India. Patiala -----

**2)Bluest Mettle Solutions Private Limited**

Name of Applicant : NA

Address of Applicant : NA

(72)Name of Inventor :

**1)MISHRA, Rahul**

Address of Applicant :ODC-4, Panchshil Tech Park, inside Courtyard by Marriott premises, Hinjewadi Phase - 1, Pune - 411057, Maharashtra, India. Pune -----

**2)SINGH, Dhiraj**

Address of Applicant :ODC-4, Panchshil Tech Park, inside Courtyard by Marriott premises, Hinjewadi Phase - 1, Pune - 411057, Maharashtra, India. Pune -----

**3)GILL, Rupali**

Address of Applicant :Chitkara University, Chandigarh-Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India. Patiala -----

(57) Abstract :

Embodiments of the present disclosure provide a system (100) and method (200) for redirecting network traffic based on application-level for cloud security service. In an aspect, the present disclosure provides a method (200) redirecting network traffic based on application-level for cloud security service. The method (200) begins with intercepting (202), by a processor (102), network traffic at a network gateway. Next, the method (200) determines (204), by the processor (102), an application type based on the intercepted network traffic. Thereafter, the method (200) implements (206), by the processor (102), security measures based on the determined application type. In the end, the method (200) creates (208), by the processor (102), a policy for a user based on the security measures.
