Address of Applicant : NA

(72)Name of Inventor :

1)MISHRA, Rahul

Address of Applicant :ODC-4, Panchshil Tech Park, inside Courtyard by Marriott premises, Hinjewadi Phase - 1, Pune - 411057, Maharashtra, India. Pune -----

2)SINGH, Dhiraj

Address of Applicant :ODC-4, Panchshil Tech Park, inside Courtyard by Marriott premises, Hinjewadi Phase - 1, Pune - 411057, Maharashtra, India. Pune -----

3)MANTRI, Archana

Address of Applicant :Chitkara University, Chandigarh-Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India. Patiala -----

(57) Abstract :

The present invention is related to the field of digital security and, more specifically, relates to the field of secure digital management aware applications operating and system (100) and method (300). The system (100) encompasses the development of techniques and technologies for managing digital content, ensuring data privacy, and implementing secure transactions within applications. Furthermore, the system (100) leverages advanced encryption, authentication, and access control mechanisms to protect sensitive information and mitigate the risks associated with unauthorized access or data breaches. The system (100) and method (300) described herein offer a comprehensive approach to secure digital management, thereby facilitating safer and more reliable interactions within digital ecosystems.
