 Address of Applicant :Department of Interdisciplinary Courses in Engineering, Chitkara University Institute of Engineering and Technology, Chitkara University, Chandigarh - Patiala National Highway, Village Jhansla, Rajpura, Punjab - 140401, India. Patiala -----

(57) Abstract :  
 The present disclosure pertains to a rotatable workstation (100) for holding a plurality of tools. The rotatable workstation (100) comprises a rotating disc (102). The rotatable workstation (100) comprises a plurality of tool mounts (104) configured over the rotating disc (102) at different angular position with respect to a longitudinal axis of the rotating disc (102). The plurality of tool mounts (104) are configured to accommodate a plurality of tools. The rotatable workstation (100) comprises a plurality of inbuilt power sockets (106) corresponding to each of the plurality of tool mounts (104). The plurality of inbuilt power sockets (106) are configured at a top of the rotatable workstation (100). Further, the rotatable workstation (100) comprises a base table (108) operably coupled to a base of the plurality of tool mounts (104). Furthermore, the rotatable workstation (100) comprises a static closet (114) configured below the base table (108).
