Address of Applicant :CHITKARA UNIVERSITY, CHANDIGARH-PATIALA NATIONAL HIGHWAY, VILLAGE JHANSLA, RAJPURA, PUNJAB - 140401, INDIA RAJPURA --

(57) Abstract :

ABSTRACT The present disclosure provides a unified device 100 to facilitate both personal vaporization and health monitoring. This unified device 100 comprises a vaping device 102 that wirelessly communicates to enable synchronization with a smartwatch 104. The vaping device 102 includes a flavour infusion chamber 106 to receive multiple flavour cartridges or pods for personal vaporization. Additionally, a one-click selection unit, operatively connected to an interface of the smartwatch 104 or to the vaping device 102, permits a user to selectively engage different flavour cartridges or pods. The synchronization between the smartwatch 104 and the vaping device 102 through wireless communication enables data exchange pertinent to both vaporization activity and health monitoring. FIG. 1
